WHO WE ARE

Godfrey Systems International Inc. (G. S. I. Inc.) was founded in early 1995 by one of the former owners of Godfrey Engineering, Inc.*, a leader in the Airfield Lighting and Aircraft Lighting Industries.

Godfrey Engineering, Inc. designed and manufactured Airfield Lighting products used all over the world. They were a prime contractor to the [Federal Aviation Administration \(FAA\)](#), the [Defense Logistics Agency](#), [NASA](#), and many state and local governments.

Our products range from Runway and Taxiway Lights, Air-to-Ground and Ground-to-Ground Radio Controllers, Dual Mode High Intensity Approach Lighting Systems, Portable Lighting Systems, to state of the art GPS Systems. We also perform Photometric Testing on several lighting systems.

In the Aircraft Lighting Industry, we provide NVG Lighting Adaptations, the Landing/Taxi Light and Anti-Collision Lights for the F-16, the Dual Mode (visible/covert) Anti-Collision Lights for the AV-8B, Anti-Collision/Position Lights for the DC-9/MD-80, and many other aircraft.

Here at G. S. I. Inc., we remain at the forefront of technology, therefore bringing the latest in innovative designs to the Airfield and Aircraft Lighting Industries. Take a look around our website and contact us for further information and sales.

* - Godfrey Engineering, Inc. became a subsidiary of B. F. Goodrich in 1991

Sold & Serviced in the United States & Canada by G. S. I. Inc.
